

11.ABSTRACT OF THE DISCLOSURE. A new and distinct low-chill rabbiteye blueberry (*Vaccinium ashei*) cultivar. Its novelty lies in the following unique combination of features:

- 1.Has a low chilling requirement.
2. Has a vigorous bush.
3. Produces large, medium-blue berries with small, dry picking scars and with good firmness, flavor and texture.
4. Ripens its crop early for a rabbiteye blueberry, averaging 7 to 10 days before 'Climax' (unpatented), or starting about May 22 in Homerville, Georgia.
